Summary

Type of Survey: evaluation of Dash merchants listed in DiscoverDash.com

Location of survey: Caracas, Venezuela

Date of survey: March 1 to 15, 2019

Number of surveyors: 4

Sample size: 299 merchants, 12.18% of claimed Dash merchant count in Venezuela (2,454)

Survey Results

Of the 299 merchants surveyed, 81, or 27.09%, were verified as being willing, able or interested in accepting Dash as a form of payment. Non-Dash-Accepting Merchants, 37, or 12.37% of the sample, specifically said they do not accept Dash as a form of payment. Unfindable Merchants, 181, or 60.54% of the sample, are merchants that were not able to be found and/or spoken with.

	Number	% of Sample
Total Dash-Accepting Merchants from Surveyed Sample	81	27.09%
Total Non-Dash-Accepting Merchants from Surveyed Sample	37	12.37%
Total Unfindable Merchants from Surveyed Sample	181	60.54%

Analysis of Dash-Accepting Merchants

Of the 81 merchants who do accept Dash (27.09% of the sample), 65, or 80.25%, have the technical capability to accept Dash payments right now. A total of 46, or 56.79% of accepting merchants, are brick and mortar businesses (as opposed to freelancers or home-based businesses). 16.05% of the surveyed accepting merchants have Dash point of sale software. 9.88% of accepting merchants, 2.68% of the total sample size, meet these 3 qualifications: they are (1) brick and mortar, (2) technically capable of accepting Dash now, and (3) have Dash point of sale software.

	Number	% of Accepting	% of Sample
Total Dash-accepting merchants from surveyed sample	81	NA	27.09%
Total accepting that are technically capable of accepting now	65	80.25%	21.74%
Total accepting that are brick and mortar businesses	46	56.79%	15.38%
Total accepting brick and mortar that have Dash point of sale software	13	16.05%	4.35%
Total accepting brick and mortar that have Dash point of sale software and are technically capable of accepting now	8	9.88%	2.68%
Total with Dash signage	38	NA	12.71%

Graphical Analysis of Survey Results

DiscoverDash Merchant Dash Acceptance Status

299 merchants in Caracas, Venezuela listed in DiscoverDash.com as accepting Dash as a form of payment were surveyed in person during the first 2 weeks of March 2019. Of those, 60.5% could not be located and/or contacted (due to imprecise and/or repeated street addresses and/or non-working phone numbers and/or failure to respond to phone calls). 12.4% specifically state they do not accept Dash as a form of payment. 27.1% are ready, willing and/or interested in accepting Dash as a form of payment.

The 81 Dash-accepting merchants from the surveyed sample were asked if they were able to accept Dash at the time of the surveyor visit. 65, or 80.2% of verified Dash-accepting merchants, reported no specific problems. 5, or 6.2%, reported that the receiving Dash wallet was not present, and thus Dash payments could not be received at that time. 11, or 13.6%, reported other technical problems.

Are Accepting Merchants Actually Able to Accept Dash?

Merchants who requested help, what kind of help do they want?

Merchants were asked what kind of help with Dash they need, if any. Of 38 responses, 25, or 65.8%, requested Dash training, noting that they did not know how to accept Dash. 6, or 15.8%, requested first installation or reinstallation of the Dash wallet. 7, or 18.4%, requested other kinds of assistance, including publicity so they can receive their first Dash transaction.

Merchants were asked how they accept Dash. 56, or 65.9% of respondents, use a Dash mobile wallet. 15, or 17.6%, use Dash point of sale software. 6, or 7.1%, use a printed QR code. 8, or 9.4%, responded with other.

How do the merchants accept Dash?

Are those that accept Dash brick and mortar businesses?

Of the 81 verified Dash-accepting merchants, 46 are brick and mortar businesses, whereas 35 are not. The latter consist of freelancers, home businesses, street vendors and others.

Of those merchants that were findable/contactable, 98 shared the number of visits they had received from a Dash representative prior to this survey. 17.3% reported zero (0) visits. These merchants may have been affiliated at a conference or other event. 37.8% reported 1 visit. 42.9% reported 2 to 5 visits. 1% reported 5 or more visits from a Dash representative.

How many visits did findable merchants previously receive from Dash representatives?

Survey of Dash-Accepting Businesses in Caracas Venezuela

How many brick and mortar accepting merchants have Dash signage?

Of those 46 verified Dash-accepting brick and mortar merchants, 34, or 73.9%, have a Dash sticker. 11, or 23.9%, have no visible Dash signage.

Of the 81 verified Dash-accepting merchants in the sample, 24.7% sell business services such as web design, community management, administration, bartending or accounting. 17.3% are restaurants, 13.6% are real estate agents, and 12.3% sell clothing.

What do the accepting merchants sell?

Dash Investment in Venezuela Summary

Month	Dash VZ	Youth	Merchant	AgroCognitive	CryptoLifeX	Colibit	Help	Maracay	Active Agents	Text	Trip	Total Dash	Dash Price USD	Budget (USD)
8/2017	24											24	\$177	\$4,248
Sep												0	\$329	\$0
Oct	68											68	\$306	\$20,808
Nov	73											73	\$251	\$18,323
Dec	73											73	\$756	\$55,188
1/2018												0	\$1,016	\$0
Feb	70				18	74						162	\$453	\$73,386
Mar	108						119					227	\$582	\$132,114
Apr	185	25					119	98				427	\$285	\$121,695
May	337	25	77	92			119					650	\$455	\$295,750
Jun		25	77									102	\$304	\$31,008
Jul			77									77	\$231	\$17,787
Aug										36		36	\$213	\$7,668
Sep	256								46	36		338	\$194	\$65,572
Oct			210						46	36	67	359	\$184	\$66,056
Nov	215		210						46			471	\$151	\$71,121
Dec	215		210						46	92		563	\$90	\$50,670
1/2019	215									92		307	\$78	\$23,946
TOTAL	1,839	75	861	92	18	74	357	98	184	292	67	3,957	<i>N/A</i>	\$1,055,340

As much as 3,957 dash, valued roughly at more than \$1,000,000 (USD) has been invested by the Dash treasury into Venezuela. Two organizations received 92.87% of the total investment (in dash terms, not in fiat). Dash Venezuela (DV) received 1,839 dash. Dash Merchant Venezuela/Dash Help/Dash Youth/Dash Active Agents/Dash Text/Dash Trip (collectively DMV) received 1,836 dash.

Despite the fact that DV and DMV have received similar amounts of dash, DV received more of theirs when the Dash price was higher and thus likely received considerably greater purchasing power than DMV.

- DashBoost proposals, GetFreeDash Venezuela, Dash.red not included.
- Sources: DashNinja superblocks, coinmarketcap.com.
- The USD amounts are based on an estimation of the lowest Dash price the day the respective superblocks fell.

Questions and Answers

What methodology was used to select this sample of 299 merchants?

A random spot was selected in Caracas on 15 or more separate occasions and the closest merchants listed on DiscoverDash.com were attempted.

Why are so many photos repeated (see the raw data section)?

A large number of the DiscoverDash merchant entries selected for the survey had the same, repeated street addresses listed in DiscoverDash, without street numbers in some cases. Surveyors took photos of where the Google Map associated with the DiscoverDash merchant entry led them.

When a merchant's precise physical location could not be found or identified, what action was taken?

Contact was attempted via the telephone number listed for the merchant on DiscoverDash.com.

What were the most common results found?

- Listed merchants have imprecise and repeated addresses rendering them impossible to find and the phone numbers were out of service or no one answered the call. A repeated address means that multiple, distinctly-named merchant entries in DiscoverDash.com share the exact same, and frequently imprecise, street address.
- Listings of individuals, such as bartenders, a barista and an architecture student, as opposed to businesses per se.
- Merchants that had never heard of Dash or had refused to accept Dash but are listed in DiscoverDash anyway.
- Repeated merchant entries in DiscoverDash; in other words, the same person or business listed multiple times.
- Listings of real estate agents and other professionals who lack a retail presence and with whom it is challenging for consumers to feasibly make a purchase with Dash.
- Merchants that want to accept Dash but are unable to due to one or more of the following issues: (a) they only received 1 visit from a Dash representative; (b) they need technical assistance; (c) they can only accept when the owner/manager is present; (d) they are experiencing some other difficulty that interferes with acceptance.
- Dash-accepting merchants waiting months to receive technical support, publicity, etc.

Why was Caracas selected?

Caracas is the city with the largest identifiable concentration of Dash merchants among the top 10 most populated Venezuelan cities, with 1,786 of the 2,454 (72.8%) claimed Dash-accepting merchants in Venezuela on DiscoverDash.com.

Cities ordered by population	DiscoverDash merchant count*
Caracas	1786
Maracaibo	7
Valencia	36
Barquisimeto	16
Maracay	44
Ciudad Guyana	2
Barcelona	0
Maturin	5
Cumaná	3
Petare	0
TOTAL	1899
DiscoverDash total	2454
Outside of top 10 cities?**	555 or 22.6%

*Due to the difficulty of effectively searching for merchants on DiscoverDash.com, it is possible these city-level numbers (not the country total) underestimate the true count.

**outside or simply not properly categorized in DiscoverDash.com.

Did the blackout in Venezuela from March 7 to March 12 affect this survey?

No, the survey was paused during the blackout.

Who are the surveyors? Are they trustworthy?

They are trusted individuals who worked very hard to complete this survey in a professional manner.

How much did this survey cost and how long did it take?

\$600 (USD) and 16 days.

So what if the Dash merchants listed in DiscoverDash are not findable?

If consumers can't find or talk to the merchant, they will not be able to generate Dash transactions by spending Dash at the merchant. They may conclude that the Dash merchants do not exist. They may decide that DiscoverDash.com, and Dash itself by extension, is incompetent or fraudulent — or both.

Why did you create this report?

I care deeply about the reputation of our Dash community. I want to be sure that the things we are saying about Dash are actually true.

I began to have suspicions about the validity of Dash merchants reported in Venezuela in mid 2018 when I learned that there was a breakdown in the relations between Dash Merchant Venezuela (DMV) and Dash Venezuela (DV). The breakdown was due in part because some of the merchants claimed on DiscoverDash.com by DMV were actually signed up by DV. The two parties kept their differences quiet and worked separately. Shortly after the controversy, the number of Dash-accepting merchants from Venezuela on DiscoverDash.com increased very quickly. Getting that many merchants so quickly was another red flag for me. I began to ask myself if it was really possible to grow that quickly and do a decent job of it.

Recently, DMV was caught submitting falsified financial documents to DashWatch. I asked myself then if it was possible that the 2,500 merchants which DMV claims are truly valid Dash-accepting merchants.

No one to my knowledge has yet taken any steps to examine the kinds of businesses in Venezuela that are listed on DiscoverDash.com, not even those who manage the website. Anyone can do this by scrolling through the listings. Is each of these listings an actual business, or is it something else? This report will help our community to make those judgements on a sizeable sample of 299 listings.

Whether each business listed on DiscoverDash.com really accepts Dash or not is another question. The only way to get that answer was to do the groundwork and to create this report. No DAO-funded project owner should be able to evade verification because of the barrier of an international border.

What other confirmation do you have that suggests these results may be representative of the full 2,454 Dash merchant count claimed in DiscoverDash.com, and not an outlier?

- A contractor operating in Caracas in 2019 set out to find 10 different merchants listed in DiscoverDash.com that actually accept Dash. During this process, the contractor discovered 18 listings that refused to accept Dash.
- Another contractor funded by the Dash Treasury in Caracas has reportedly struggled to find DiscoverDash-listed merchants that actually accept Dash.
- A well-placed Venezuelan source who had no knowledge of this survey estimates that 75% of the DiscoverDash-listed merchants in Venezuela are faulty in some critical way.
- Other well-placed sources have repeatedly said that the merchant count is fake, but these sources are afraid to speak up due to fear of reprisal.
- Verified Dash community members in Venezuela report that Dash Merchant Venezuela paid between \$1 and \$2 USD (on average) per Dash merchant reported to be affiliated, a sum which could incentivize fraudulent reporting of affiliations.

Can you offer any alternative explanations for these results other than widespread fraud?

Playing devil's advocate, alternative explanations may include:

1. incompetence, carelessness and/or negligence.
2. the 60.5% of unfindable merchants actually existed at some point but all chose to report the same fake street addresses and have subsequently gone out of business and disconnected their phones.
3. merchant adoption efforts were focused on signing up friends, acquaintances, conference attendees, conference contractors, and others who were easily accessible.
4. freelancers were incentivized to sign up merchants but no quality control was exercised over the results.

What kind of businesses are the 60.54% of merchants that are unfindable?

They are not for the most part restaurants, tech shops, clothing stores, pharmacies or other types of brick and mortar retail establishments. Among them are listings such as airplane mechanics, party-planning services, security guards, industrial engineers, pants factories, holistic therapists, neuro-linguistic programmers and interior designers. A consumer adoption strategy for Dash in Venezuela can not be started with these kinds of businesses.

What questions should the Dash community be asking itself based on the results of this survey?

1. If only 15.4% of this sample are brick and mortar businesses that actually accept Dash, what is the true number of Dash-accepting merchants in Venezuela? Is it 2,454, as reported on DiscoverDash.com? Or is it actually a much smaller number?
2. How should the community handle the fact that there is now evidence suggesting widespread fraud in the submission of new Dash merchants from Venezuela to DiscoverDash?
3. How do we begin to represent the true number of Dash-accepting merchants in Venezuela to the world from here on out without causing undue harm to the Dash brand in the marketplace?
4. How do we rapidly provide effective Dash support, Dash stickers, and Dash point of sale system installs to the remaining merchants?
5. What would the cost to Dash's credibility have been if someone from outside of our community had so easily discovered that our oft-repeated "2,500 Venezuela merchants" talking point was not actually true?
6. How are we going to ensure this never happens again?
7. Why did our system of governance not detect this?
8. What other Dash community members and DAO-funded organizations were aware of this situation but did not speak up, and instead permitted it to continue?
